EARLY TERMINATION OF ORTHODONTIC TREATMENT

I, _____ request that my daughter/son _____ orthodontic appliances be removed because we are not able to financially complete the orthodontic treatment agreement I signed on _____. If we want retainers now or in the near future the fee for each retainer is \$300. Un-retained teeth are very prone to shifting without the placement of post-orthodontic retainers. To protect your original investment we highly recommend getting retainers as soon as possible.

Orthodontic appliances can be re-applied at anytime at an additional fee to be quoted at that time.

I have been referred to my general dentist for a post-orthodontic examination, dental cleaning and for treatment of any dental conditions that require his or her attention.

Doctor Ouellette and his staff are not responsible for any relapse or future orthodontic and dental problems. At any time you notice an orthodontic problem we will provide a **NO CHARGE** evaluation and treatment estimate.

The above terms and conditions stated herein are in effect for 12 months.

I have read the above information and understand everything stated. I have also been given the opportunity to ask questions and discuss each point.
